

Rules for the cemetery grounds

- All live plants must be in a pot in an elevated urn stand. The urn stand must be positioned adjacent to the gravestone.
- Fresh cut flowers must be contained in a non-breakable receptacle on or near the gravestone.
- We do not recommend shepherd's hooks.
- Do not leave potted plants sitting on the ground or gravestone.
- All plants and pots must be removed by October 15th for winter storage.
- The cemetery does not generally permit artificial decorations, including plastic or silk flowers, styrofoam crosses, balloons, stuffed animals, non-US flags, pinwheels, etc. These types of decorations can only be displayed for a few days before and after holidays and then removed.
 - **All flowers and memorabilia deemed unsightly, unsafe or inappropriate may be removed at the discretion of the cemetery management.
- All natural wreaths and greens are allowed from November 15th to March 15th, as the weather permits. After that time they will be removed and discarded.

**These rules are also posted outside the cemetery gates.
